## About C P Walker & Son

**C P Walker & Son is one of Nottingham's longest established businesses.**

Founded in 1896 by Charles Potter Walker, the business was principally set up to manage properties recently constructed by family members.

The company diversified into insurance soon afterwards, originally collecting premiums from shopkeepers along Beeston High Road and from the traders at Nottingham's Wholesale Fruit and Vegetable Market.

Our established insurance department can cater for a wide range of insurance requirements. We have been managing and advising many of our clients for over 50 years.

Our independent service is supported by one of the UK's longest established networks for independent insurance brokers, Bravo Networks. Our membership with these gives us access to reputed, specialist brokers as well as exclusive products not available on the general market.

With C P Walker & Son, you will not be speaking to a call centre; you will deal with an experienced local insurance professional who understands what you need.
