Foreword

Welcome to Roundhill Farm on behalf of W Green & Sons and Cooper & Tanner, for this dispersal of farm machinery, dairy equipment and sundry farming items. This sale arises due to the decision by the Green family to retire and relinquish their farming tenancy. The family came to Roundhill Farm in 1952 and developed a dairy herd to an impressive 300 milking cows at its peak, with the cows being milked through the 20/40 herringbone parlour which is in the auction today. Whilst the machinery has been well used, it is all typical of what is needed to operate a busy dairy unit and will be of interest to all in the farming industry.
