Condition Report Terms

Condition reports are given on the basis of a simple physical inspection by naked eye and is not an exhaustive list of defects. We do not use infra-red, ultra violet lighting, etc. for checking and therefore the onus is on the buyer to ascertain the condition of a lot.

Buyers are responsible for inspecting lots before bidding for them and satisfying themselves of their condition, taking independent advice if necessary. Where a condition reports is given it does not absorb the buyer of their responsibility to inspect the lot themselves. Any lots sold in a secondary market (i.e. auction) are, due to their age, rarely in perfect condition and no warranty is given in relation to their condition.
